Summary

MERN & Java Full Stack Developer with hands-on experience building scalable, RESTful web applications using Java, Spring Boot, React.js, Node.js, Express.js, and MySQL/MongoDB. Growing expertise in Data Analytics, including data cleaning, visualization, and dashboarding using Excel and SQL to turn raw data into actionable business insights. Strong foundation in Data Structures & Algorithms, OOPs, and SDLC, with a track record of writing clean, maintainable, and efficient code.

Technical Skills

Languages: Java, JavaScript, Python, C

Frontend : HTML5, CSS3, React.js, Bootstrap

Backend: Spring Boot, Spring MVC, Hibernate, Node.js, Express.js, REST APIs

Database: MySQL, MongoDB

Data Analytics: Advanced Excel (Pivot Tables, VLOOKUP/XLOOKUP, Power Query, Macros), SQL, Power BI, Tableau, R, SAS

Tools: Git, GitHub, Maven, Postman, IntelliJ, VS Code

Core CS: OOPs, DBMS

Experience

Excel Solutions

Present

Data Analyst Intern

Remote, India

- Building interactive Excel and SQL-driven dashboards to track sales, inventory, and operational KPIs for business stakeholders.
- Cleaning and transforming raw datasets using Power Query and advanced formulas to improve reporting accuracy.
- Automating recurring reports with Excel macros, cutting manual reporting effort significantly.

Native Soft Tech

Feb 2024 – Apr 2024

Java Full Stack Developer Intern

Remote, India

- Developed and optimized RESTful APIs using Java and Spring Boot, improving application performance and ensuring seamless data flow between frontend and backend systems.
- Built responsive, reusable user interfaces using React.js integrated with backend REST services, reducing page load time by **20%**.
- Designed relational database schemas in MySQL and wrote optimized SQL queries following Agile/Scrum practices with Git and GitHub.

Projects

Sales Wise Dashboard (Adventure Works) | *Excel, Power BI, SQL, DAX*

- Built an end-to-end sales analytics dashboard on the Adventure Works dataset, uncovering revenue trends across **regions, products, and customer segments**.
- Designed dynamic pivot tables, KPI cards, and DAX measures to track YoY sales growth, profit margin, and top-performing products in real time.
- Delivered actionable insights that identified underperforming regions, providing a data-backed roadmap for a **15% targeted sales improvement**.

AI Resume Builder | *React.js, Node.js, Express.js, MongoDB, REST APIs*

| [Link](#) |

- Built a full-stack MERN AI-powered resume builder generating professional, ATS-friendly resumes from user input using dynamic templates.
- Designed a responsive React.js frontend with real-time preview, letting users edit and format resume sections instantly.
- Developed REST APIs with Node.js/Express.js and MongoDB for resume data processing, template rendering, and PDF export.

Online Food Delivery Application | *Java, Spring Boot, React.js, MySQL, REST APIs*

| [Link](#) |

- Architected a full-stack food delivery platform end-to-end, covering authentication, menu browsing, cart management, and order processing.
- Designed RESTful APIs with Spring Boot for order placement, tracking, and payment status, consumed by a React.js frontend.
- Normalized the MySQL schema and optimized queries, reducing average API response time by **25%**, with JWT-based role access.

Education

Raghu Engineering College

2022 – 2026

B.Tech, Computer Science Engineering (IoT)

CGPA: 8.3

Certifications

- Data Analyst Certification – NASSCOM
- Java Full Stack Development – Edu Skills
